SEPTEMBER 27-29, 2012
The Ritz-Carlton
San Juan Hotel Puerto Rico

MESSAGE FROM THE PRESIDENT

Esteemed colleagues and distinguished faculty.

As president of our Association, it is of great honor and privilege to welcome you to the 63rd Annual Meeting of the Puerto Rico Urological Association. I commend all its past presidents for upholding its long tradition of academic excellence.

Your presence and excellent turnout each year truly has imposed a great challenge on the appointed Executive Committee and myself to provide an exceptional educational program. I believe that the topics addressed will spark your interest for in depth education and constructive discussions. In addition our social program promises to give you the opportunity to enjoy your company with fellow colleague in a relax ambiance.

My sincere gratitude to the Board of Directors composed of Dr. Alberto Ramírez López, Secretary; Dr. Jesús Nieves Reino, Treasurer, and Dr. Gilberto Ruíz Deyá, Educational Program Director; who all came together and organized an enlightening program. May these conferences enable all to emerge with deeper understanding, strengthened always by our commitment to serve our patients.

This year we would like to acknowledge a distinguished fellow colleague, Raju Thomas, MD, FACS, MHA, Professor and Chair, Department of Urology, Tulane University School of Medicine. For his continued support to our Association, his involvement in the education of Puerto Rican urologists, his continued support in providing educational insight to our urology program in Puerto Rico and ultimately for his friendship which has surpass cultural boundaries and has embraced our Puerto Rican culture.

Finally, dear colleague let us remain motivated by optimism, let this encounters enable all of us to ignite passion and excellence in our discipline. May this meeting serve a forum to exchange viewpoints and to come to agreed physicians with regard to our future line of action in respect of the practice of urology in Puerto Rico.

Profound respect to all.
